## EXPERIENCE

### Project Management Officer

#### HCL Technologies

📅 08/2022 - 05/2024 📍 Chennai, Madurai

A leading global IT services company

- Managed a team of over 600 full-time employees, ensuring efficient workflow and productivity
- Successfully oversaw 25 projects, ensuring timely completion and delivery
- Handled billing activities for the workforce and projects, ensuring accurate and timely invoicing for clients
- Created project plans and tracked the schedule for on-time delivery as per the defined quality standards
- Worked with billing activities for the above FTE and projects and invoices to the clients

### Intern

#### GENICON BUSINESS SOLUTIONS PVT LTD

📅 03/2022 - 04/2022 📍 Chennai

A reputed business solutions provider specializing in various services

- Compiled and analyzed daily, weekly, and monthly reports to track key performance indicators, resulting in improved decision-making and operational efficiency
- Developed and implemented a streamlined process for report generation, reducing the time
- Collaborated with cross-functional teams to ensure accurate and timely submission of reports

## PROJECTS

### Online Movie Ticket Booking System

📅 09/2025 - 10/2025

Online Movie Ticket Booking System

- Developed a full-stack web application enabling users to browse movies, view show timings, and book tickets online.
- Implemented secure user authentication and role-based access (Admin/User) using Spring Security.
- Built RESTful APIs for movie scheduling, seat selection, and booking management.
- Designed a responsive UI with Thymeleaf templates for a smooth user experience.
- Integrated payment simulation and automatic booking confirmation using email notifications.
- Improved database performance with optimized JPA queries and relational mapping.
- **Tech Stack:** Java, Spring Boot, Spring MVC, JPA, Thymeleaf, MySQL, HTML, CSS.

## PROJECTS

### Online Quiz Application

📅 09/2025 - 10/2025

Online Quiz Application

- Developed a dynamic quiz platform supporting multiple categories and difficulty levels.
- Implemented an auto-scoring system for submitted answers.
- Designed an API-based modular backend for scalable feature expansion.
- Enhanced UI usability with AJAX-based form submission and real-time score validation.
- **Tech Stack:** Java, Spring Boot, REST API, JPA, MySQL, HTML, CSS, Bootstrap.

### Learning Management System (LMS)

📅 09/2025 - 10/2025

Learning Management System

- Created a platform for managing courses like a free open-source website.
- Performed validation and exception handling to improve application reliability and security.
- **Tech Stack:** Java, Spring Boot, Spring Data JPA, Thymeleaf, MySQL, HTML, CSS.
